

Testimonials

"We have used these trays exclusively for many years and chose to go with them again when we opened our second campus in 2007. They encourage a sense of unity and serving one another. One person can easily set up 40 trays in 20 minutes."

Theresa Craig...First Impressions Director
Central Christian Church
of the East Valley...Arizona
Average weekend attendance...8,500

"We used to allow 7-8 minutes for communion in the services each week. When we changed to IC trays we cut our serving time in half. We can now serve communion in 4 minutes or less."

Peter Miele...Worship Pastor
Chandler Christian Church...Arizona
Average weekend attendance...2,500

Communion Trays

A Better Communion Experience...

www.inspiredclay.com

What Makes Our Communion Trays So different?

Celebrating the Lord's Supper should be the highlight of any worship service. Inspired Clay communion trays can help bring a fresh perspective to the Lord's Supper by encouraging your members to serve each other as they remember the cross.

Save Dollars...Time...Volunteers

- No more disposable cups & gallons of wasted juice... Recover your purchase price in savings in less than 15 months *
- Lightening fast load and reload times... No more little cups to order, fill, collect & toss
- One person can easily prep communion in a large church in minutes... Allows you to release volunteers to serve in other high impact areas on the weekend

Benefits

- Flexible for a variety of settings; worship, small groups, retreats
- Sanitary and easy to maintain
- No special equipment to buy
- Inscription can be customized for your congregation**

* Based on weekly communion ...
Excludes any tax and shipping
** At an additional cost

About "Inspired Clay" Trays

Each tray is handcrafted from high fire stoneware clay and fired to a blistering 2,264 degrees F. The resulting glass finish is beautiful in appearance and durable enough for many years of continuous use.

FAQ's

Visit www.inspiredclay.com for a list of commonly asked questions

Is it Biblical to dip bread for the Lord's Supper?

The Lord's Supper from the beginning consisted of a single cup and a loaf of bread. IC trays honor this first century practice by providing a single cup on each tray for the dipping of bread from a shared loaf.

How sanitary is it to have people dip bread into the cup?

Only the edge of the tray is touched as it is passed. Bread strips are long enough to be dipped without the fingers coming near the juice. Any drips are caught by the plate.

How do you store the trays when not in use?

You can buy a storage unit at a department store or have someone in your church build you a custom cabinet. We can also build one for you if you like.

Facts, Savings & Pricing

Finished size

Plate - 10" across
Overall height - 4"
Weight - 38 oz.
Comparable to a traditional cup tray

Clay body available in white or beige
